

Parc Des Familles Phase I boosts a New Poligon Shelter **Crown Point, LA**

Jefferson Parish is developing a 610-acre site named Parc Des Familles in Crown Point and relied on Hahn Enterprises to help design the Poligon shelters for both Phases 1 & 2. The Poligon Oxford series selected for Phase 1 was installed earlier this year and includes a 3-tier multi-rib metal roof which can withstand 140 MPH wind loads - making it both attractive and sturdy!

Plans for this site include walking trails, a conservation area, botanical gardens, and a reception hall - along with the already completed Estelle Playground where Hahn Enterprises installed outdoor bleachers.

Please contact us if you would like to explore the different Poligon shelters available, or to help with other equipment in your gymnasium, park, playground, or
