

McNeese State Upgrades Stadium for ADA Compliance

Lake Charles, LA

McNeese State is undergoing a campus-wide ADA upgrade including adding accessible platforms with companion seats supplied by Hahn Enterprises at Cowboy Stadium. The platforms were custom manufactured by our supplier, National Recreation Systems, to follow the curvature of the stadium and the varying rises between each row.

All in all, (20) custom platforms were installed on both the home and visitors sides of the stadium. Now, all fans will have an equal opportunity to view the Cowboy's games!

If you would like to explore upgrading your facility to meet ADA guidelines or if your project includes gymnasium equipment, playground equipment, safety surfacing, shade structures, or outdoor bleachers, please contact us for help with design, specs, and/or budget pricing.
